Aurora Health Care

Aurora Health Care is an integrated, not-for-profit, and all-for-people health care provider serving communities throughout eastern Wisconsin and northern Illinois. Our approach keeps people in our minds and at the heart of everything we do. We treat each person as a person, not as a patient, an illness or an appointment.

Aurora got its start in 1984 when two established Milwaukee hospitals, St. Luke's Medical Center and Good Samaritan Medical Center, came together to form Aurora Health Care. Over the years, our organization grew, allowing us to help more people and communities.

Today Aurora serves communities throughout eastern Wisconsin and northern Illinois, with 15 hospitals, more than 150 clinics and 70 pharmacies in 30 communities. Aurora strives to offer services that are close to home, and help make the whole community healthier.

Holy Family Memorial Announces New President & CEO

"Manitowoc, Wis - We are pleased to announce that Brett Norell, MHA, has been named president and CEO of Holy Family Memorial. Norell joined HFM in May 2015 and has been serving as interim-CEO since April 2018."

"Brett's passion for our mission and his experience in healthcare will be great assets in leading HFM," stated Scott McConnaha, President and CEO of Franciscan Sisters of Christina Charity Sponsored Ministries (FSCCM). "During his tenure with HFM and FSCCM he has been a respectful, compassionate leader. I have great confidence in his ability to guide HFM to a bright future."

Tapped on the Lakeshore

Tapped on the Lakeshore, 3114 Memorial Drive, is set to open its doors in mid to late September. The new bar will include a 24-tap lineup, some snacks, TVs, along with a variety of table and outdoor games.

Jolene McMahon and Craig Pautz came up with the idea while visiting St. Petersburg, Florida, over the holidays. McMahon said they saw a similar bar with games and a microbrewery.

Foxconn Technology Group says it will invest \$100 million in engineering and innovation research at the University of Wisconsin-Madison.

The deal announced Monday is one of the largest gifts in the university's history and comes as the Taiwan-based electronics giant builds its first North American factory in southeastern Wisconsin.

Foxconn CEO Terry Gou and UW-Madison Chancellor Rebecca Blank signed an agreement that also calls for Foxconn and the university to create a science and technology institute on the UW-Madison campus. Blank says the \$100 million deal is the largest industry research partnership in the school's history.

Foxconn is the world's leading electronics manufacturer. It chose Wisconsin for its first plant outside of Asia after receiving generous incentives from the state. Foxconn says the plant could cost up to \$10 billion and eventually employ 13,000 people.

Webinar Series: Exploring European eCommerce

The U.S. Commercial Service is pleased to present a webinar series for U.S. SMEs looking to boost exports to the European Union through e-commerce.

In 2015, the European Commission unveiled the Digital Single Market strategy, making the growth of the digital economy a priority for Europe. In 2016, E-commerce sales in Europe reached \$628 billion, up 15%, with 261 million consumers shopping online
